Connect the camera directly to the computer

1. Connect the device, if the local connection is " 📷", Camera successfully connected. If the local connection is " 📷 ", Camera failed successfully.

2. Download and open DAHUA Search Tool "Config Tool. The initial IP of Dahua Camera is 192.168.1.108.

If the device is not found, ping the IP of the camera from the computer, enter cmd in [Run] and confirm, then enter ping+device IP+space+-t (e.g. 192.168.1.108 -t), if a data response can be generated, the connection is successful.
