App passwords settings

← App passwords

App passwords let you sign in to your Google Account from apps on devices that don't support 2-Step Verification. You'll only need to enter it once so you don't need to remember it. [Learn more](#)

You don't have any app passwords.

Select the app and device for which you want to generate the app password.

Email Login password

Your app password for your device

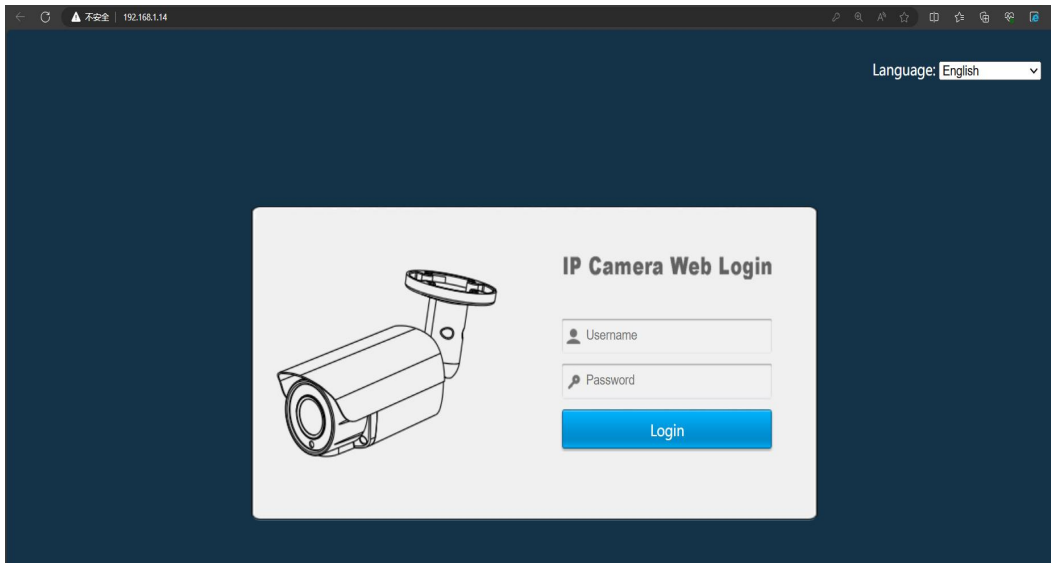

avvr [redacted] pekx mppt

How to use it

Go to the settings for your Google Account in the application or device you are trying to set up. Replace your password with the 16-character password shown above. Just like your normal password, this app password grants complete access to your Google Account. You won't need to remember it, so don't write it down or share it with anyone.

DONE

5. Open IE browser. Enter camera IP and login in camera web.

6. Click "Configuration - Network - SMTP(Email)"

- ① SMTP Server is "SMTP.Gmail.COM"
- ② The SSL port usually is 465.
- ③ Enter the Email and password.
- ④ Enter sender and subject.
- ⑤ Enter the receive mail address and cc mail address.
- ⑥ Click to send a test email, and will receive a test email in your mailbox
